Changes Coming to Utility Billing Of Residential Rental Properties Beginning October 1, 2019

After several workshops and receiving feedback from the community, City Council has decided to move forward with several changes to utility billing for residential rental properties effective October 1, 2019. These changes will increase efficiencies for billing residential rental properties.

Changes are as follows for tenants moving into a property Oct. 1st or after:

1. Legal property owners (landlords) will be able to authorize the City to send utility bills to a tenant or property manager as a courtesy.
2. For tenants, a utility bill will display "Owner/Occupant" and will only be mailed to the service address.
3. The City will only create a final bill when property ownership changes. It will be the property owner's responsibility to pro-rate a bill when tenants move in or out.
4. Owners will continue to be ultimately responsible for all utility charges that occur at the property including delinquency and water turn-off and turn-on fees regardless of vacancy or tenant changes.

Residential properties with utility accounts currently in a tenant's name will not change until the tenant moves out.

If at any point a landlord needs assistance calculating a pro-rated bill for a vacating tenant, they are encouraged to contact utility billing and we will be happy to assist them. As an additional resource, an informational sheet detailing the billing cycle, payment options, and the property's garbage day will be available upon request.
